Education

Jawaharlal Nehru Technological University Hyderabad

Bachelor's in Computer Science and Engineering

July 2023 – Present Hyderabad, Telangana

Projects

TradeSphere

React.js, Bootstrap, MongoDB, Express.js, Node.js

Live Demo: <https://tradingsphere.netlify.app/>

GitHub: <https://github.com/KrishnaKaushik1707/Zerodha-clone.git>

- Build a responsive stock trading dashboard using React.js and reusable components.
- Developed a REST API's using Node.js & Express.js and integrated MongoDB for data storage.
- Designed clean, user-friendly UI for watchlist and portfolio-style views.

AI-Powered Resume Screening App

React.js, Node.js, Express.js, MongoDB, OpenAI API

- Developed a web application to automate candidate resume screening using AI, reducing manual review time.
- Implemented natural language processing (NLP) to parse resumes and extract key skills, experience, and qualifications.
- Integrated OpenAI API to evaluate resumes against job descriptions and provide ranking/recommendations.
- Designed an intuitive front-end using React.js with real-time feedback on candidate-job matching.
- Built a secure backend with Express.js and MongoDB for storing resumes, job postings, and screening results.
- Enhanced hiring efficiency by delivering data-driven insights and a user-friendly dashboard for recruiters.

Hackathon Projects

RideOn – Smart Companion App for Bikers: 24-Hour Hackathon | Sreyas Institute of Technology | Apr 2025

React.js, Supabase, Vercel, JavaScript, ML (Linear Regression)

- Built a web app featuring a virtual bike garage, maintenance log, and fuel log with ML-based mileage prediction.
- Used Supabase for backend and user auth, deployed via Vercel.
- Gained hands-on experience in machine learning integration, backend development, and team collaboration under deadlines.

Live Demo: <https://lnkd.in/gtgPxUQD>

Achievements

- Secured Top 29 position out of 1500 teams in Bajaj Finserv HackRx 6.0, showcasing expertise in innovative problem-solving and technical implementation.

Technical Skills

Programming Languages: C++, JavaScript, Python, Java, HTML, CSS

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Bootstrap

Tools & Platforms: Git, GitHub, Postman, VS Code

Core CS Concepts: OOPs, DBMS, CN, OS
